WHY HAS THIS FRAMEWORK BEEN DEVELOPED?

CN 2022/S 000-022137, CAN 2023/S 000-013284, PCS MAY478137

This framework has been developed to provide an efficient, value for money procurement route for local authorities; registered social landlords; councils, trusts, and other public sector bodies seeking a comprehensive range of high-quality consultancy services across multiple disciplines.

Key benefits - at a glance:

- ✓ Higher service standards through access to innovative companies of varying sizes.
- ✓ Greater customer service by focussing on collaboration and social value.
- ✓ A diverse supply base that reflects the Scottish communities we serve.
- ✓ Increase public sector access to SME expertise and support regional and local economic growth.

About this framework

This Consultancy Services Framework is the first framework of its kind to have been provided by LHC Procurement Group to the Scotland region and is a direct result of LHC's continued focus on bringing meaningful innovation to procurement framework design to meet the challenges faced by local authorities, registered social landlords, councils, boards, trusts, and other public sector bodies.

By combining our procurement and design expertise, and our track record in creating award winning frameworks aimed at ensuring greater diversity and inclusion, social value, and equal opportunities have culminated in the creation of our latest consultancy framework CS1.

“ In addition to large and medium-sized consultancies, of the 117 appointed companies across 21 lots are comprised of 80% SMEs, and between 35% and 60% in each lot are micro and small companies. Providing the public sector access to a more diverse range of SME and micro firms to support regional and community growth initiatives. ”

Dean Fazackerley

Head of Technical Procurement

The tender was carried out in strict accordance with the Public Contracts (Scotland) Regulations 2015. Places on the framework were awarded to 58 different suppliers in four workstreams. The companies appointed to the framework are registered, qualified organisations with a track record in supporting public sector.

The term of the framework is from **26th April 2023 to 25th April 2027**. However, individual call off projects can be completed beyond the four-year duration of the framework as long as a contract is in place prior to the framework expiry date.

ABOUT THIS FRAMEWORK

CONTINUED

Our vision for the framework

The CS1 framework has been created to help organisations build capacity, strength and provide a comprehensive range of high-quality consultancy services across multiple disciplines to the public sector.

Following client feedback on the restrictive nature of value bands, combined with the vision to remove barriers for SMEs, this framework has been designed to be open and accessible.

The transparency and ethos of the framework encourages micro-SMEs to collaborate or partner with larger companies to bid, which in turn encourages growth through the four-year lifetime of the framework, making it more sustainable in the long term.

Our Client Support Managers and Technical Support Managers will be on hand to provide guidance around how to short-list applicants if a smaller list of bidders is required.

Aimed at projects of all sizes to meet client need and truly reflect the current market, it will also help organisations to offer something more through the evaluation of bidders' focus on EDI and customer service.

ABOUT THIS FRAMEWORK

CONTINUED

LHC Lifetime Values

In addition to providing our Partners with competitively tendered Framework Agreements for building works, goods, and services SPA is committed to delivering tangible social value and community benefits that meet local and regional needs. SPA work with our Partners and Appointed Companies to ensure that wherever possible projects delivered using our Frameworks leave a social legacy.

SPA has aligned its activities to create the LHC Lifetime Values, which uses the four key value categories as identified in the value toolkit by the Construction Innovation Hub (CIH). CIH has been established by Government to progress innovation in the construction sector.

During the life of the Framework SPA will work with Partners and Appointed Companies to promote, identify, implement, and monitor the impact of these value categories, which could be supported by social value and community benefit initiatives alongside the delivery of the works or service contracts in meeting local/regional needs.

EVALUATION

CRITERIA

This framework was procured via a single stage open procedure in accordance with the Public Contracts (Scotland) Regulations 2015.

The following qualification criteria were used to assess the suitability of appointed companies.

Financial Stability Assessment

Appointed Companies were assessed on a range of financial information including liquidity and profitability and checked via Creditsafe. The results of this check were assessed on a pass/fail basis.

Minimum Insurance Cover

Throughout the duration of the framework Appointed Companies are required to have the minimum levels of insurance to be considered as set out in the table below:

Insurance	Value
Employers (Compulsory) Liability Insurance	£5,000,000
Public Liability Insurance	£5,000,000
Professional Indemnity Insurance	£2,000,000

Accreditations and Certifications

In order to be considered eligible for this Framework, Appointed Companies were required to evidence that they held both the applicable qualifications and accreditations for each Lot/ Workstream they were applying for.

Workstream 1 – Professional Consultancy

Lot	Professional	Professional Qualifications (Mandatory)
1a	Architectural Services (Buildings)	Membership of the Architects Registration Board (ARB) is a mandatory requirement for this lot.
1b	Architectural Services (Landscaping)	Membership of the Architects Registration Board (ARB) is a mandatory requirement for this lot.

CALL-OFF AWARD OPTIONS

THE FRAMEWORK ALLOWS PARTNERS THE OPTION OF:

When calling off projects, clients can use any one of a range of standard forms of building contract including JCT/SBCC, NEC/NEC4, ACE, PPC, TPC, FAC1, or their own in-house agreement.

ELIGIBILITY

SPA is a not-for-profit organisation, governed by public law and a central purchasing body providing procurement services. Over 120 publicly funded organisations throughout Scotland use SPA frameworks to procure works, goods and services to construct, refurbish and maintain social housing, schools and public buildings:

- Scottish Registered Social Landlords (RSL's)
- Registered Tenants Organisations (RTOs)
- Local Authorities
- Subsidiaries, Joint-Venture Companies and Arm's Length Management Organisations (ALMOs)
- NHS Scotland Boards
- Universities and Further Education Establishments
- Police Scotland
- Scottish Fire and Rescue Service
- Registered Charities
- Other Public Bodies

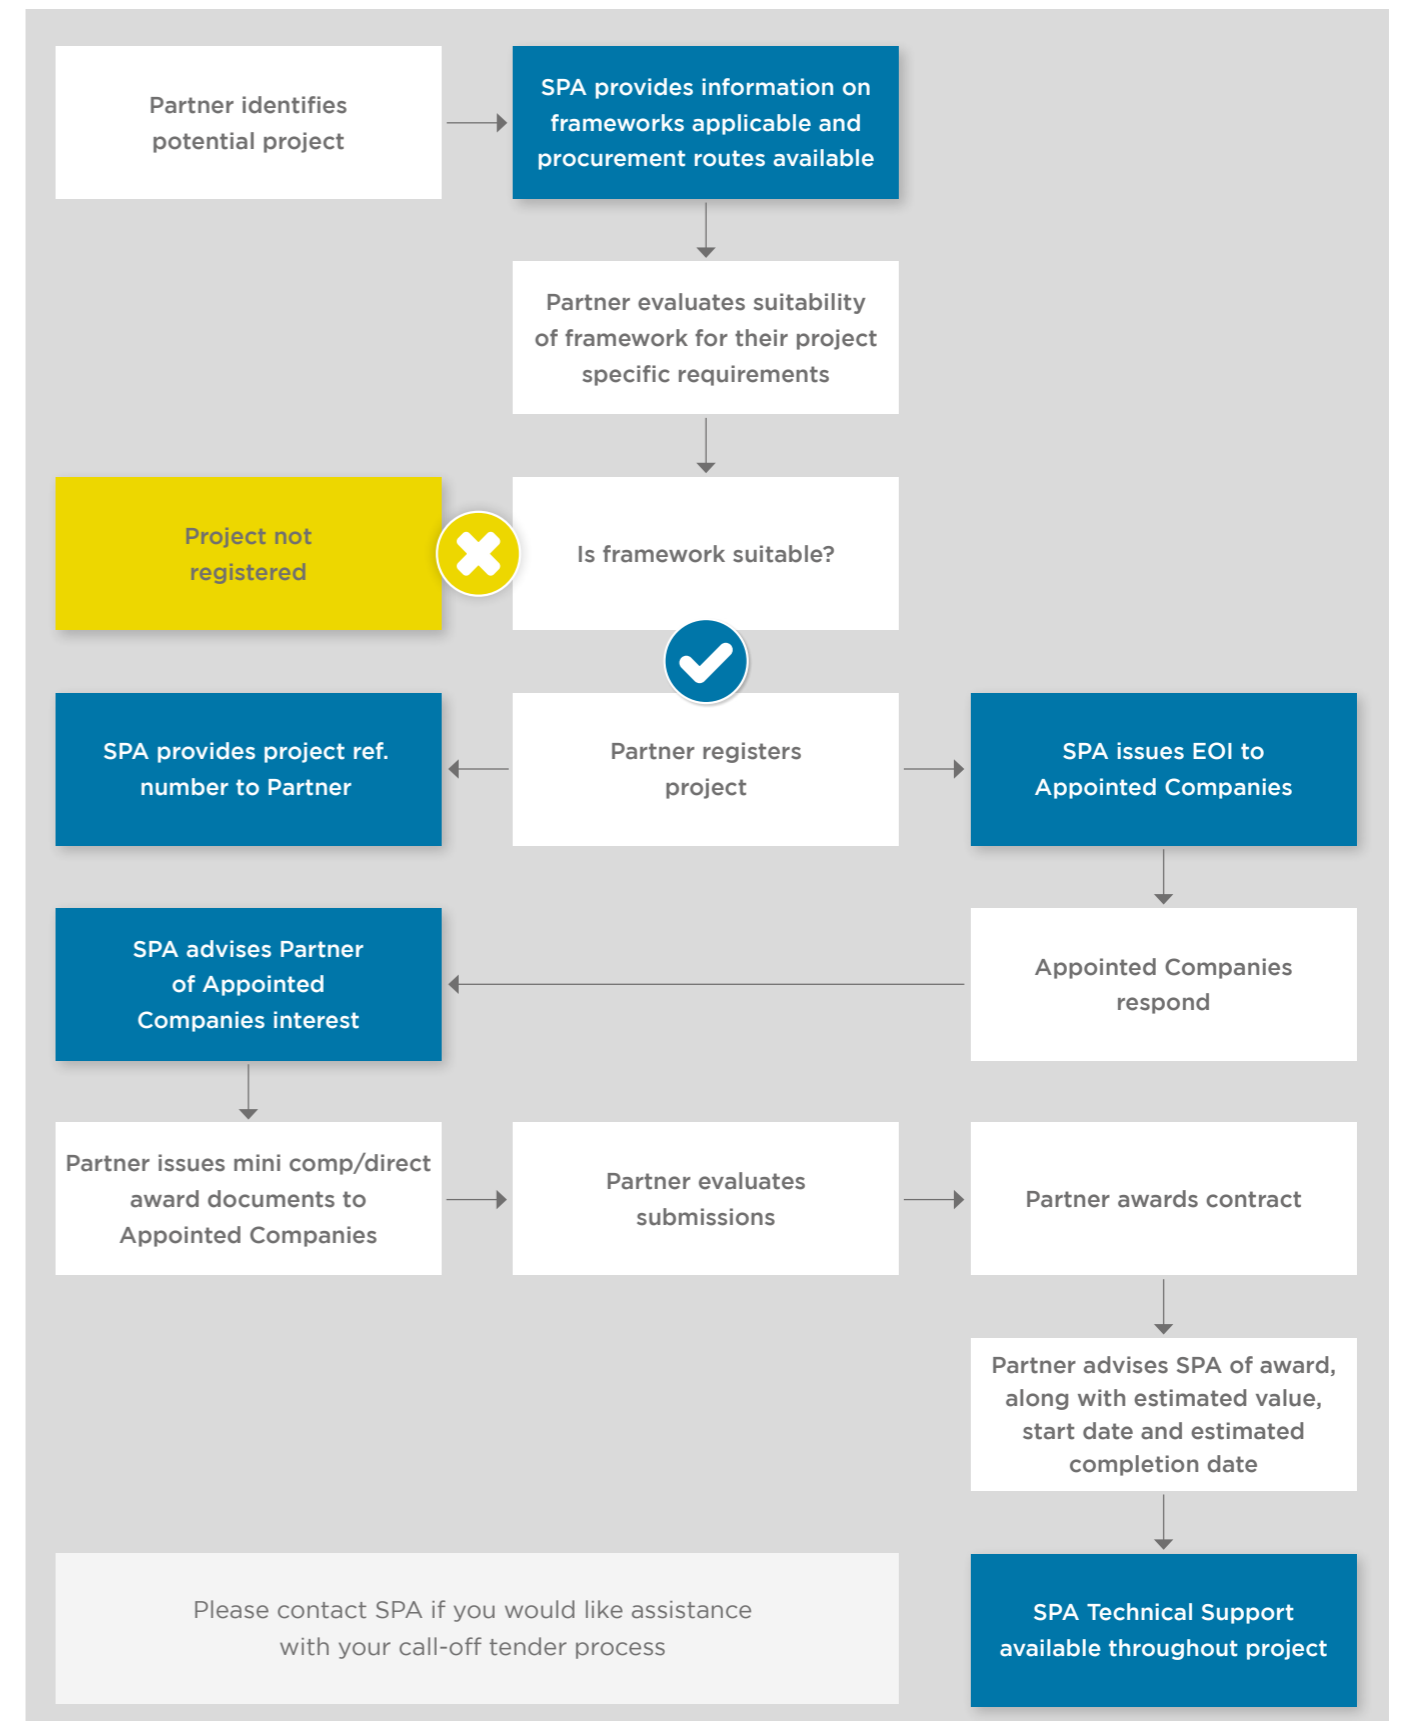

Details of those contracting authorities identified are listed at:
www.scottishprocurement.scot/who-we-work-with/

GENERAL TERMS AND CONDITIONS

LHC uses the FAC-1 standard form of contract to manage our frameworks. The LHC pro forma, which should be read in conjunction with the FAC-1 in published form, details the terms and conditions that govern the operation of the framework, including the procedures to call off projects under

the framework. A free copy of the LHC proforma is available upon request. The FAC-1 in standard published form can be purchased at a negotiated rate from ACA, by emailing office@acarchitects.co.uk and quoting discount code reference: LHCFAC2516102017.
